We bought Dunny as a weanling here at Farmers & Ranchers in 2015. Since then he has been used to run summer grass cattle in the Flint Hills. He has been used consistently the last 3 years prowling through pastures, doctoring and shipping cattle, and gathering strays. Whatever the task has been he has taken it with ease. Due to some unforeseen circumstances, we had a spot in the sale come available and decided to offer this nice gelding!
